

Dynamic, reflective and inspiring

THE WORLD'S YOUR OYSTER

A highly engaging and interactive global awareness learning experience for schools and colleges

Examining such issues as Ethical Consumption, Poverty & Social Justice, Climate Change, Migration & Refugees, Fair Trade and much more

- Does your school have an interest in global citizenship education, development education or justice issues? If so, the 'World's Your Oyster' programme may be just right for your students.
- The one day workshop is an interactive, fun-filled global awareness programme through which students have the opportunity to engage in an energetic and creative way and learn more about the issues that affect our world while at the same time fostering a way of thinking that cultivates positive change.

The World's Your Oyster

Bringing the world to your classroom

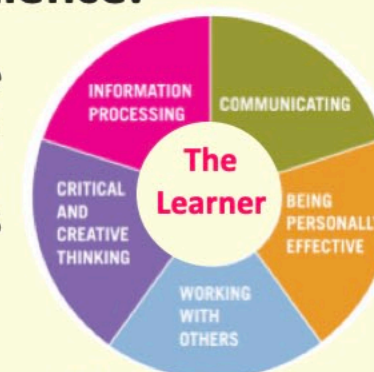

We offer students time out from the normal classroom setting to help them focus on key aspects of their lives and the world around them.

We invite students to learn about global justice issues, make them curious about the world they live in and foster a sense of gratitude in their day-to-day lives.

We help them express their hopes and fears while building confidence, compassion and resilience.

The programme has a strong experiential interactive learning approach, ideal for transition year students but can be tailored to suit any year group. The programme is also applicable to the 'Five Key Skills Cycle' identified as central to teaching across the Senior Cycle curriculum

Our facilitators have extensive experience of working with young people in the area of global citizenship education and have worked with various schools in Ireland. Their qualifications include: International development, pastoral care, education and psychology.
